

Misongo Favour

Web Engineer

Resume Summary

Highly skilled and adaptable Full Stack Developer with extensive expertise in both LAMP and MERN stacks, showcasing a steadfast dedication to remaining abreast of the latest advancements in technology.

Work Experience

2020-
present

Solana Lead Dev, ChessOnChain IO

Yenagoa, Bayelsa

As the Solana Lead and Solana smart contract developer at ChessOnChain IO, I've been instrumental in crafting compelling user interfaces and optimizing the user experience for blockchain applications. My role encompasses not only the design and implementation of intuitive interfaces but also extends to the development of smart contracts on the Solana blockchain. This highlights my proficiency not only in the MERN stack but also in the broader JavaScript ecosystem, allowing me to seamlessly integrate frontend and blockchain functionalities for a cohesive and.

2018-
present

Senior Engineer & Technical Instructor, Golden Viosam Ltd

Yenagoa, Bayelsa

As a senior engineer and technical instructor at Golden Viosam Ltd, I contribute to the growth and knowledge enhancement of the team. My role involves both leadership in engineering projects and sharing my expertise through training sessions, fostering a culture of continuous learning within the organization.

Education

2020-
2024-

Oduduwa University Ipetumodu

Ife, Osun.

Bachelors in Computer Science
